

Summer Review for Precalculus A and Precalculus AB

This is all completely optional but strongly encouraged!

Purpose: Extra practice where a little extra help might be needed. Keep fresh so you don't forget everything over the summer.

Benefits: Start Precalculus A / Precalculus AB feeling confident and ready for the new year.

The optional summer review is housed within a course management system called MyOpenMath. We will be using this throughout the 2017-2018 school year as well, but with a different course.

To enroll, please follow the steps and helpful screenshots on the next page.

If you have any questions, feel free to email me at cvesperman@prairieschool.com. Please allow 72 hours for a response.

- 1) Go to myopenmath.com.
- 2) Click on the link "Register as a new student."

MyOpenMath

The screenshot shows the MyOpenMath homepage. At the top is a purple navigation bar with links: Welcome, Student Self Study, For Instructors, and About Us. Below this is a grey banner with the word "Welcome" and a colorful fractal image. The main content area is divided into sections: "Free and Open", "Students", "Instructors", and "Getting Started". On the right side, there is a "Login" box with fields for "Username:" and "Password:", a "Login" button, and links for "Register as a new student", "Forgot Password", and "Forgot Username". A yellow callout bubble with the text "Click: Register as a new student." points to the "Register as a new student" link.

- 3) Fill out the relevant information correctly.

MyOpenMath

The screenshot shows the "New Student Signup" page. At the top is a blue header with the text "Home > New Student Signup". Below this is a section titled "New Student Signup". The form contains the following fields and instructions:

- Enter a username. Use only numbers, letters, or the _ character.: [text input]
- Choose a password: [text input]
- Confirm password: [text input]
- Enter First Name: [text input]
- Enter Last Name: [text input]
- Enter E-mail address: [text input]
- Notify me by email when I receive a new message: ☒
- I have read and agree to the Terms of Use: ☐
- Select the course you'd like to enroll in: [dropdown menu]
- Course ID: [text input]
- Enrollment Key: [text input]
- Sign Up button

Yellow callout bubbles provide additional instructions:

- "Remember to write down your password. The system does not let Mrs. V see it." (points to the password field)
- "Use your school email address." (points to the email field)
- "Course ID: 22665 Enrollment Key: TPS" (points to the Course ID and Enrollment Key fields)

Once you are enrolled, you may proceed in any manner you see fit. I would suggest starting with Module 0 and working through Module 14. However, you may skip any module with which you feel confident with the material.

Within each module, start with the Pre-Test. If it goes well, you can move onto the next module.

If you need additional practice, you can

- Read through the textbook,
- Watch instructional videos,
- Complete problem sets, and/or
- Take the quiz at the end of module.

This is completely self-directed. Do as little or as much as you think is necessary.
