

## THE INTERSECTION OF OPPORTUNITY AND ENGAGEMENT

While rigorous by design, students willing to give their best effort and take advantage of the amazing opportunities offered at Prairie will be afforded a high school experience unlike any other in southeastern Wisconsin.

Working side-by-side with master teachers, Upper School students are exposed to an array of subjects and ideas, all of which are designed to help them think critically and ask questions while reaching their maximum potential.

Prairie helps students become their best selves while preparing them to excel in the next stages of their lives.

### Upper School Features

#### Junior and Senior Class Interim

Upperclassmen step out of the classroom and participate in custom, one or two-week internships designed to expand their knowledge of post-college career options. From working in a medical lab to assisting at a veterinary hospital to learning at Fortune 500 companies, students are afforded a glimpse into life after graduation.

#### Activities & Opportunities

From Student Government to C.L.A.S.S. (Character, Leadership, Accountability, Sustainability and Service) to Service Club to Science Olympiad, there are over 40 clubs and activities for Upper School students to discover their passions while developing leadership skills.

#### Malone Schools Online Network

As one of the few schools in the country receiving a Malone Scholars Program endowment, Prairie is able to participate in the Malone Schools Online Network. Offering courses like *Ancient Greek*, *Creative Writing in the Digital Age*, *Medical Bioethics*, *Multivariable Calculus*, and *Philosophy in Pop Culture*, the MSON bolsters Prairie's already robust curriculum. MSON courses are available to Prairie's juniors and seniors.

## WHY THE PRAIRIE UPPER SCHOOL?

### Individual Growth

From things like mentoring younger students as part of Prairie's Buddy Program, to interacting with classmates at Camp Manito-Wish for four days of leadership development each fall, Upper School students have ample opportunities for self-reflection and relationship building.

### Elite Instruction

With numerous subject areas taught by educators holding doctorate degrees, and with over fifty percent of our faculty members possessing advanced degrees, Prairie gives students accessibility to a collection of teachers that few institutions can match.

### Customized Support

Under the direction of Primary School Head Kathy Boero, our Compass Team – comprised of Learning Specialists, Academic Support Teachers, a Director of Educational and Counseling Psychology and a Registered Nurse – works with students and families to ensure every individual is met on their own learning level.

### Prepped for Success

With nearly every Prairie graduate attending a four-year college or university, students begin considering options early. College counseling begins freshman year, and for the next four years, students are given the support and direction needed to make informed, confident decisions.

### Experience Prairie For Yourself

Witnessing the passion, creativity and energy permeating our school each and every day is the best way to understand the power of Prairie. Call or visit us online to schedule the visit that will change your child's life.
