

TO EARLY SCHOOL / PRE-KINDERGARTEN

Students in our Early School Program are nurtured by master teachers committed to growing intellects and expanding imaginations.

We want our youngest learners exploring with their hearts, hands, and minds. We want them creating and being silly and enjoying everything that makes being a child so great. In addition to developing the social, emotional, and academic skills needed to ensure success in Kindergarten, Prairie's Early School offers plenty of time to run and laugh and play.

Learning with Purpose

Early School classrooms are equipped with “centers” that reinforce thematic units covered during lesson time. The use of thematic units – which are also strategically built into all Early School field trips – is a concept that continues through Primary School.

The Perfect Fit

Whether your child is ready for full-day classes five days per week, or you’re interested in a part-time program, one thing is certain: the three and four-year-olds in Early School – under the careful guidance of a full-time teacher and full-time assistant – grow and thrive in a world of compassion, collaboration, and creativity.

Experience Prairie For Yourself

Witnessing the energy filling our classrooms is the best way to understand the power of Prairie’s Early School. Call or visit us online to schedule the visit that will change your child’s life.

A day IN THE LIFE...

Below are a few of the highlights in the active day of a Prairie Early School student.

Hands-on Math and Science

From numerical scavenger hunts to exploring in the Giving Garden, fun, informative lessons help students begin to think critically while collaborating with others.

Daily Physical Education

Daily gym class (and recesses!) support the development of imagination, problem-solving abilities, and fine and gross motor skills.

Music Education

By focusing on sensory experiences and physical movement – key forces behind brain development – classes foster a love of music through singing, dancing, and playing instruments.

Multisensory Spanish Lessons

Through a variety of songs, stories, and games, students are introduced to concepts such as culture, heritage, and diversity.
