

MEDICATION PREPARATION FOR CAMP MANITO-WISH 2024

If your child takes prescription medication:

1. You need to complete a [Prescription Authorization Form](#) signed by you and your healthcare provider. Email it to [Julianne Smith](#), School Nurse, or fax it to 262-752-2661.
2. Medications will be delivered to the Health Office by 8/12/24. If there are tablets, deliver only the number of doses needed for the trip in the prescription bottle with your student's name on it. Place the bottle in a clear plastic bag labeled with your child's NAME and GRADE.
3. The camp nurse or an employee of the Prairie School will administer all prescription medications for freshmen and sophomores. Juniors and seniors on trail will have their medication administered by their trail guide.
4. Ensure that you have listed your student's prescription medication on their PowerSchool Health page.

If your child takes over-the-counter medication (acquired without a prescription):

1. List your child's medication on their PowerSchool Health page with complete instructions (time of day, dose, etc.). No Prescription Authorization Form is needed for OTC medication.
2. By 8/12/24, deliver only the number of doses needed for the trip in the original packaging that includes the dose, name of medication, and expiration date. Place that in a clear plastic bag labeled with your child's NAME and GRADE.
3. The camp nurse or an employee of The Prairie School will administer medications to freshmen and sophomores. For juniors and seniors on trail, the camp trail guide assigned to your child will administer their medication.

If your student has emergency medication (inhalers or Epipen/Auvi Q):

1. By 8/12/24, deliver your child's prescription to the Health Office and an [Emergency Action Plan](#) or [Asthma Action Plan](#). If you do not have an Emergency Action or Asthma Plan, the camp nurse or trail guide will follow a standard plan.
2. Your child may carry their own medication. However, you need to deliver a duplicate to the Health Office for the camp nurse or trail guide. The duplicate medication should be in the prescription box. Place the box in a clear plastic bag labeled with your child's NAME and GRADE.
3. If you cannot provide a duplicate, your child must check in with the school nurse or other supervising adult before boarding the bus to ensure your child is carrying their medication.
4. Ensure that you have listed your child's emergency medication on the PowerSchool Health page.

For help with your PowerSchool password or access to the Health page, contact [Bree Mahone](#), Assistant Director of Admission.

Deliver medications to the Health Office. Questions? Contact [Julianne Smith](#), School Nurse, at (262) 752-2660.
